PROFESSIONAL SUMMARY

As a software engineer, I constantly push myself to be dynamic and ambitious. With my proficiency in frameworks such as Next.js, React.js, and Vue.js, I strive to craft interactive and responsive web applications that meet diverse business needs. I take pride in my demonstrated ability to leverage Vue.js by creating custom web components, including a universal Chatbot adaptable across various platforms, such as WordPress. My contributions to the development of B2B platforms in React.js showcase my aptitude for understanding complex business requirements and delivering scalable solutions. I am committed to continuous learning and staying updated with industry trends, and I am eager to further develop my skills to contribute meaningfully to innovative projects.
