SUMMARY

- Software Engineer with 2 years of experience in Frontend Development in React. Seeking new opportunities in MERN stack.

EXPERIENCE

- **Persistent Systems** Pune, Maharashtra, India
Software Engineer July 2022 - March 2024
 - Leveraged my frontend development skills to contribute to the NPO (Nomis Price Optimizer) product for Nomis Solutions within Persistent Systems' BFSI (Banking, Financial Services, and Insurance) unit.
 - Implemented a seamless transition from **AngularJS** to **React.js** for the frontend of a complex application.
 - Optimized code structure and refactored components resulting in a 12% reduction in bugs and an overall increase in application stability.
 - Created a SPA from scratch for heavy file upload using **Tailwind CSS** and **Next.js**.
 - Developed an API using **AWS API Gateway**, creating three endpoints that seamlessly integrated with one **Lambda** function, streamlining data processing and reducing response time by 14%.
 - Streamlined API Gateway provisioning process by implementing **Terraform** infrastructure as code, reducing setup time by 17% and facilitating efficient deployment of new APIs.
- **Persistent Systems** Remote
Software Engineer Intern Jan 2022 - June 2022
 - Built a responsive layout for the "About us", "Contact us", "FAQs" and "Meet the Team" page for the clients landing page.
 - Utilized strong knowledge of **HTML**, **CSS**, **JavaScript** and **React.js** to create visually appealing and user-friendly web interfaces.
 - Collaborated with team members to develop and implement innovative solutions, resulting in improved user experience.

EDUCATION

- **Savitribai Phule Pune University** Pune, Maharashtra, India
Bachelor of Engineering - Computer Engineering; CGPA: 9.25 June 2018 - May 2022
Courses: Object Oriented Programming, Data Structures and Algorithms, Database Management Systems, Computer Networks, Operating Systems

PROJECTS

- **RentWheels:**
 - Created RentWheels website using **Next.js**, **Tailwind CSS**, **JWT Authentication**, and **Stripe integration**.
 - Orchestrated a seamless booking system for users to easily rent vehicles.
 - Enhanced user experience with advanced search and filtering options.
 - Created comprehensive vehicle listings for users to browse and select from.
 - Ensured secure online payments through a reliable payment gateway.
- **BeFit:**
 - Engineered BeFit, a robust fitness application utilizing **React.js**.
 - Implemented a user-friendly interface using **Material UI** to display various exercises targeting specific muscle groups.
 - Designed and developed responsive UI for seamless user experience across different devices.
 - Optimized application performance through efficient React.js components and state management.
 - Integrated **ExerciseDB API** and **YouTube Search and Download API** to dynamically fetch exercise data and associated video links.

SKILLS SUMMARY

- **Languages:** HTML, CSS, JavaScript, TypeScript, Java
- **Libraries:** React.js, Redux, Redux Toolkit, React Router
- **Frameworks:** Next.js, Express.js, Bootstrap
- **Databases:** MySQL, MongoDB, SQLite
- **Environment:** Node.js
- **Tools:** GIT, JIRA, Confluence, Docker, Postman, Firebase, BitBucket, Mongo Compass, VS Code

ACHIEVEMENTS

- Received the **Bravo Team Award** for my contribution at Persistent Systems.
- Solved over **400+** questions on LeetCode with a streak of **100+** days.
- **First runner up** in the ideation phase of the **Smart India Hackathon 2020**.
- Winner of the Mobile Track Quiz in the Google DevFest 2021.
